

HOW DO PEOPLE SEARCH FOR ISA & PENSION PRODUCTS ON SEARCH ENGINES?

How people search

What people search

When people search

Behaviour insights

Methodology: Google Keyword Planner export UK. Keywords tagged by journey stage (Awareness, Consideration, Intent), Product (Pension, ISA) and query type (question, guidance, performance, etc).

HOW PEOPLE SEARCH ISA

Searcher journey

AWARENESS
29.04%
Search volume

CONSIDERATION
23.67%
Search volume

INTENT
47.29%
Search volume

Searcher journey

Just over
1 in 2 searches
are in the Awareness /
Consideration stage

INTENT
47.29%

This behaviour suggest that users search as much about information as they do products. Those searching may know, or have experience with products and know what they want, comparing multiple options come intent to buy.

Searcher intent

ANNUAL

34.01%

Users looking most for annual product updates

Keyword type
ALLOWANCE
LIMITS
RATES

GUIDANCE

9.47%

Users generally confident with product, but using tools

Keyword type
QUESTIONS / HELP
CALCULATOR
RULES
TAX
TRANSFER

MONEY

20.60%

Users assessing account options and savings providers

Keyword type
ACCOUNT
SAVINGS
STOCKS
INVESTMENTS
JUNIOR
TRACKER

PERFORMANCE

6.61%

Users comparing, but also looking for best performing

Keyword type
COMPARE
TOP

OTHER

29.22%

Users aware of product, but looking for extended options

Keyword type
OTHER

What the searcher wants

85.96%
AWARENESS
searches are
about
-ANNUAL
-GUIDANCE

ANNUAL product updates
searched for more than
GUIDANCE suggest that users
are generally well informed on
product and looking for an
expert voice

98%
searches are for 4/5
topics

Average decline of -33% for ANNUAL,
GUIDANCE & OTHER

211% growth in MONEY and
PERFORMANCE

This behaviour suggest that users
are satisfied with information and
want to know best products

MONEY grows
170%

OTHER keywords make up 3/5

PERFORMANCE drops to zero

This behaviour suggest confident
users who want to buy

HOW PEOPLE SEARCH ISA

Searcher journey

Searches again split almost equal between AWARENESS/ CONSIDERATION, and INTENT. More searches in AWARENESS than investment options and a higher percent INTENT shows users compare less.

Searcher intent

ANNUAL
5.11%

Small number of user
influenced by autumn
updates

Keyword type
ANNUAL

GUIDANCE
27.16%

Users find retirement
options confusing,
searching for answers
and advice

Keyword type
ADVICE
QUESTION
TOOLS
TRANSFER

MONEY
33.11%

Users searching for their
retirement product
options

Keyword type
AVC
SIPP
SCHEME
WORKPLACE
PLANNING/PLANS
PRODUCTS
FLEXIBLE
OPEN

PERFORMANCE
3.35%

Users compare to a lesser
degree, but want to know
the tax implications and
benefits

Keyword type
COMPARE
TAX

OTHER
31.11%

Users aware of, or have
product and looking for
additional options

Keyword type
OTHER

What the searcher wants

52%
of pension
AWARENESS
searches are
QUESTIONS

This behaviour suggest a less financially confident user that finds retirement options confusing.

309%
increase in
PERFORMANCE

Whilst GUIDANCE declines by -36% in consideration, it remains 9% higher than every other search type combined

This behaviour suggest users are comparing options but remain unsure

MONEY
&
PERFORMANCE
50/50

GUIDANCE & PERFORMANCE
drop to zero

This behaviour suggests users ready to select product after longer incubation period, now searching for what's right for them and what it means to their future
